1   Getting Started

Modal Editing: There are two modes in Jupyter Notebooks:

- Edit Mode: What is typed enters the cell.

- Command Mode: Keystrokes are commands (typing `b` creates a new cell.)

To get from Edit Mode from Command Mode: `Esc`
To get from Command Mode from Edit Mode: `Enter`

Inline Help: To get help on a command, execute the command with `?` at the end.
Ex: To get help on `np.random.randn`, execute `np.random.randn?`.
